

Ideas to help
students
develop
their creativity

@James_Kieft

The Session

We will explore a range of alternative assessment activities that enable students to develop their digital creativity.

What alternate
assessment activities
do you currently use?

<https://www.menti.com/al32ya2ddj82>

News report

- Ask students to share their learning, in the form of a news report
- Suggest they cover it from a particular point of view
- Ask them to consider the who is the audience

Flip

- Use the camera feature on Flip
- Make use of filters to add News logo
- Can be easily shared with you or their peers

Debating podcast

- Students assigned opposing viewpoints
- Research and prepare an effective argument
- Helps to students understand to see multiple points of view

Infographic

- Quick summary key things covered during the lesson
- Check students understanding
- Helps them to communicate succinctly picking out key points

PowerPoint

- Create template in PowerPoint
- Scaffold approach by providing suitable icons
- Suggested size 22cm x 56 CM

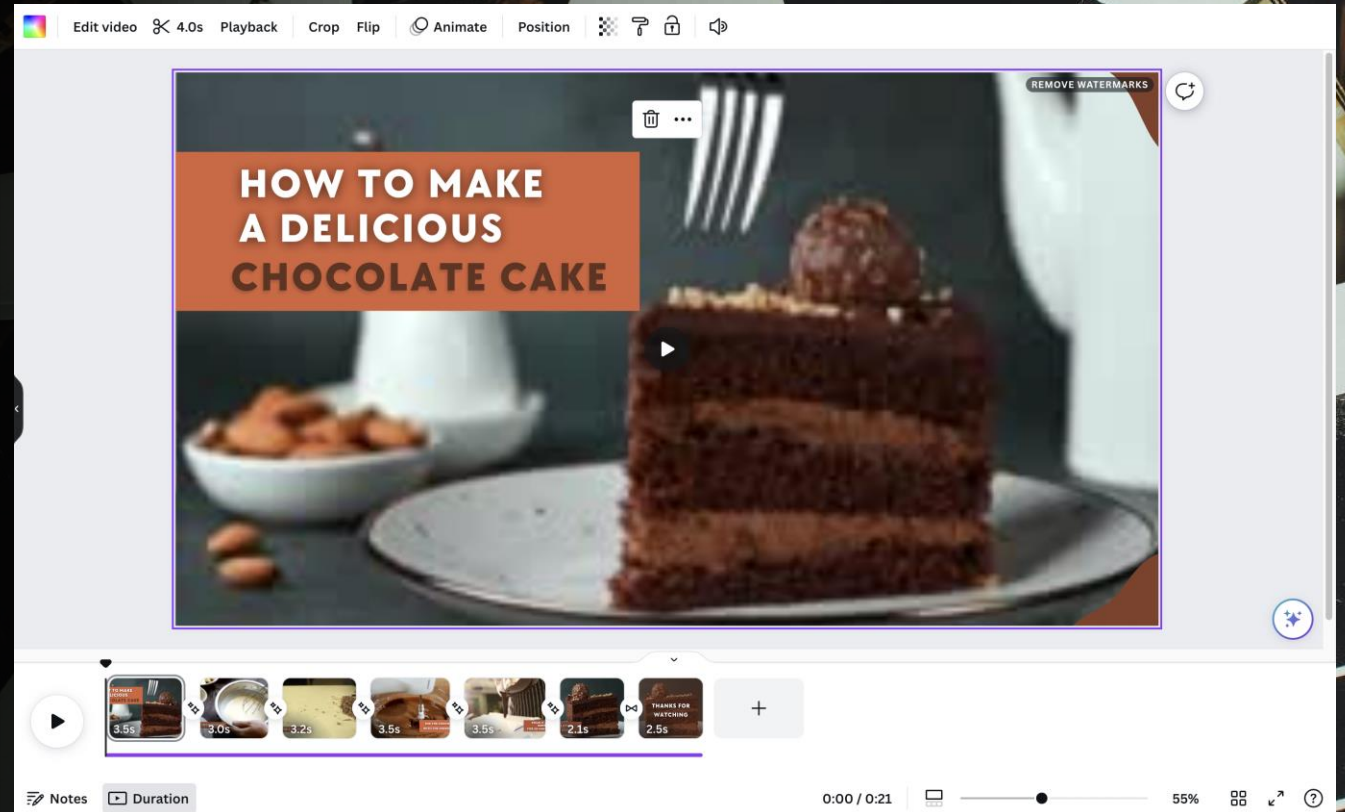

Instructional video

- Identify key information to share
- Correctly sequence the steps
- Ensure language is appropriate for the intended audience

Canva Video

- Easy to use editor
- Adapt existing template
- Upload on content
- Add text, shapes and animations

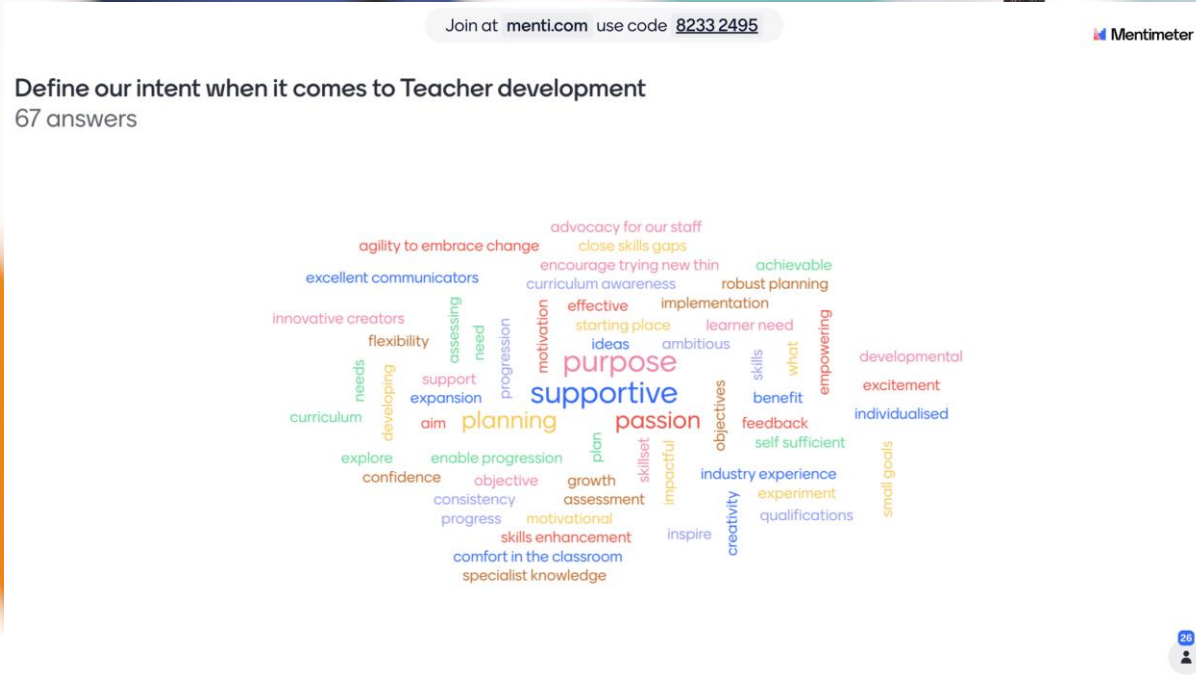

Glossary of terms

- Check prior knowledge
- Familiarise students with how to spell specific vocabulary
- The meanings of key words

MentiMeter and OneNote

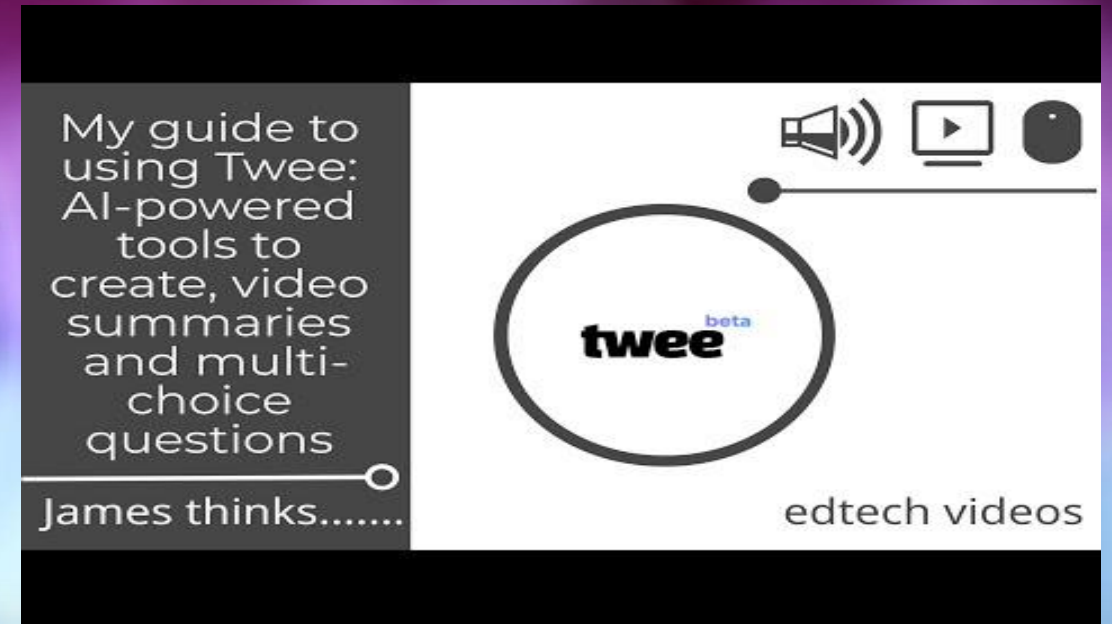

- Capture key words via a word cloud using MentiMeter
- Use OneNote to create a glossary
- Student contribute terms
