The future

A network diagram is constructed on a dark, textured surface using several brass-colored pins and thin, translucent yellow-green string. The pins are arranged in a roughly circular pattern, with one central pin connected to multiple peripheral pins, creating a star-like topology. Some peripheral pins are also connected to each other, forming a mesh. The background is blurred, showing more pins and strings, suggesting a larger, more complex network.

Quick Walkthrough of an Automate Flow

Describe it to Design it

The background is a complex, abstract digital landscape. It features numerous 3D cubes of varying sizes and orientations, some appearing to float in the air. These cubes are interconnected by a dense network of thin, red lines that crisscross the entire scene, creating a sense of a vast, interconnected network or data flow. The lighting is soft and diffused, with a warm, golden-yellow glow emanating from the left side, which fades into a darker, more muted purple and blue on the right. The overall effect is one of high-tech, futuristic connectivity.

Power Virtual Agents

A blue pen with a silver tip is positioned diagonally across the upper left portion of the image. The background is a document featuring a bar chart with several blue bars of varying heights. The entire scene is framed by a white border, which is itself set against a dark, textured background.
