Blended Learning Consortium Prevent Package

The Skills Network and the Blended Learning Consortium

This proposal is between:

(1) The Skills Network
(2) Members of the Blended Learning Consortium

Summary

The Skills Network is a training provider, offering a range of technology-enabled products and services.

The Skills Network proposes to offer Prevent to members of the Blended Learning Consortium with access to the resource being made available via our online learning platform, EQUAL.

EQUAL allows learners to undertake their study in an exciting and interactive e-learning environment. The system not only supports learners' development, but also includes tutor access and intelligent data management tools which cover all aspects of blended and distance learning delivery.

Our Online Prevent Package which covers all the OFSTED requirements has been written by Prevent experts and available as either tutor marked or auto-marked, this online solution covers:

- E-Safety

- Community Cohesion

- British Values.

The content is designed to help roll-out prevent across Governors, Staff and Students. With e-learning, downloadable lesson plans and discussion topic ideas - it is the full solution in an interactive and easily manageable environment. Tracking and monitoring from our LMS also comes as part of this package.

Scope of Services

TSN propose to provide online courses from 31st August 2016– 30th August 2017.

TSN proposes to offer Prevent to members of the blended learning consortium with access to the resources being made available via our online learning platform, EQUAL.

Any updates to the system or content will also be included within the package and be

Support

installed automatically. TSN will appoint a dedicated Account Manager who will be your point of

Contact for any orders, questions or required information
